DECLARATION AND POWER OF ATTORNEY

I, the now named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name,

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

"METHOD OF PROVIDING MAINTENANCE SERVICES"

Case No. P00,1820, the specification of which

(check one) X is attached hereto.
was filed on March 16, 2001, as
Application Serial No. 09/810,351
and was amended on _____
(if applicable)

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims as amended by any amendment referred to above.

I acknowledge the duty to disclose to the United States Patent Office all information which is known to me to be material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, 1.56.¹

I do not know and do not believe this invention was ever known or used in the United States of America before my or our invention thereof, or patented or described in any printed publication in any country before my or our invention thereof or more than one year prior to this application, that the same was not in public use or on sale in the United States of America more than one year prior to this application, and I believe that the invention has not been patented or made the subject of an inventor's certificate issued before the date of this application in any country foreign to the United States of America on an application filed by me or my legal representatives or assigns more than twelve months prior to this application, and that no application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to this application by me or my legal representatives or assigns, except as identified below:

I hereby claim foreign priority benefits under Title 35, United States Code, 119 of any foreign application(s) for patent or inventor's certificate listed below

Prior Foreign Application(s) Number	Country	Date

¹ (b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

(1) It establishes, by itself or in combination with other information, a *prima facie* case of unpatentability of a claim; or

(2) It refutes, or is inconsistent with, a position the applicant takes in:

(i) Opposing an argument of unpatentability relied on by the Office, or

(ii) Asserting an argument of patentability.

A *prima facie* case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

If no priority is claimed, I have identified all foreign patent applications filed prior to this application:

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANT: Mario C. SPIRA et al. GROUP ART UNIT: 2167
SERIAL NO.: 09/810,351 EXAMINER:
FILING DATE: March 16, 2001
INVENTION: METHOD OF PROVIDING MAINTENANCE SERVICES

AFFIDAVIT

1. My name is Melvin A. Robinson and I am an attorney of record in the above-identified application. I state that the following information is from my own first hand knowledge of the facts.

2. I have personally attempted to obtain the signature of the inventor Perry Cavanaugh on the Declaration and Power of Attorney form for the present application. In particular, I have mailed the specification, claims, abstract, drawings, assignment form and declaration and power of attorney form to Mr. Cavanaugh for signature at his last known address in a letter dated July 17, 2001. A copy of my letter is attached showing Mr. Cavanaugh's last known address. These papers were not returned.

3. I have contacted by telephone Mr. Kimberley James Pfeifer, an inventor in this application and a co-worker of Mr. Cavanaugh's at the Siemens facility in Calgary, Canada. I was told by Mr. Pfeifer that Mr. Cavanaugh left the employ of Siemens and that he had great animosity toward the company. I was also told that I should not expect to get Mr. Cavanaugh to sign and return any paper on behalf of the Siemens company as he most likely threw the papers away.

4. I located Mr. Cavanaugh's current employer in Calgary, Canada and left a telephone message for Mr. Cavanaugh to call me back and asked that he sign and return the papers. He did not return my call.

5. I sent Mr. Cavanaugh another set of application papers for signature with a letter of October 12, 2001. A copy of my letter is attached. These papers have not been returned.

6. In light of the foregoing, I have concluded that Mr. Cavanaugh has refused to sign the present application.

Respectfully submitted,

Melvin A. Robinson (Reg. No. 31,870)
